BRING JOY TO YOUR WORLD

WITH OUR WINTER SEASONAL TO BRIGHTEN EVERY MOMENT

NEW FLAVOR LIMÓN Y CHILE.

The advertisement features a vibrant green background with a subtle circular pattern. In the upper left, a large, fresh lime slice is shown. In the upper right, an orange circular badge with a white border contains the text "NO TOMATO" in white, bold, sans-serif capital letters. The central focus is a can of Bud Light Chelada Limón y Chile. The can is green with a red top band that reads "LIMÓN Y CHILE". The Budweiser logo is visible on the can. The text "BUD LIGHT" is in large white letters, and "CHELADA" is in large red letters with a white outline. Below this, it says "LIMÓN Y CHILE" and "PREMIUM LIGHT LAGER WITH NATURAL FLAVORS". To the right of the can is a glass of chelada, a golden beer with ice, topped with a splash of orange liquid and garnished with a slice of jalapeño, a red chili pepper, and a lime wedge. Two whole chili peppers, one green and one red, are positioned at the bottom right. The overall composition is dynamic and emphasizes the fresh, spicy flavor of the beverage.

BRIK^{wine co}

BRIK: BUILD YOUR GREAT MOMENT.

La Perlina

Introducing La Perlina in Aluminum Bottles

Our Irrepressible Moscato and New Sparkling Rosé Are Gorgeous

Moscato – La Perlina Moscato brand is +65% over last two years. And Moscato is hugely successful: 3 of Italy's top 10 imported brands are Moscato. It has been embraced by Millennials looking for refreshing, crisp, lower alcohol (8%) white wines.

Sparkling Rose – An exciting fusion of three trends: The simultaneous rapid growth of Italian sparkling wines (+14.5% YOY), rosé (+34% YOY) and sparkling rosé (+20%) ... all in one beautiful wine.

La Perlina Offers What Consumers are Asking For:

375ml bottles

- Sales +20% in 2019 (750ml -2%)
- Growing societal forces of moderation make single-serve or duo-serve containers an increasingly more attractive package for consumers

Convenient -

- Resealable cap makes it easy to have a glass and then reseal
- Convenient for sporting events, parks, beaches and golf courses that do not allow glass
- Cools 5x faster than glass

Environmentally Friendly

- 100 recyclable – can be used over and over again in a true closed loop
- 62% lighter than glass, significantly reducing greenhouse gas emissions during transport
- Requires 10%-12% less energy to produce than glass

Advantageous for Preserving Wine

- Aluminum bottles protects the wine from UV rays, which accelerates the degradation of wine quality over time

INTRODUCING TWO TREES WHISKEY

Where Artistry Meets Innovation

The true art of our craft spirits lives within the balance between the finest quality grains, pristine Appalachian mountain water, and the full-bodied flavors of our toasted wood varieties. Our woods are hand selected to pair with a specific grain, then toasted to just the right char bringing rich flavor profiles and a hint of smoke. Our process is our recipe.
